

# Giridhar Pai

Cyber Security Student | Aspiring SOC Analyst | Blue Team and Digital Forensics Enthusiast

Dakshina Kannada, Karnataka, India | [www.giridharpai@gmail.com](mailto:www.giridharpai@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## Professional Summary

Motivated cybersecurity fresher with hands-on exposure to SOC concepts, threat monitoring, SIEM, digital forensics, vulnerability assessment, and cloud security. Built practical skills through TryHackMe labs, hackathons, certifications, academic projects, and security-focused web applications. Seeking an entry-level SOC Analyst, Cybersecurity Analyst, or Blue Team role.

## Education

### Yenepoya University

Jul 2023 – Jul 2026

BCA in Cyber Security, Ethical Hacking, and Digital Forensics with IBM

### S N Moodbidri Polytechnic

Aug 2019 – May 2022

Diploma in Computer Science and Engineering

## Certifications

- AWS Certified Security - Specialty
- Google Cybersecurity Specialization
- Digital Forensics Essentials (EC-Council)
- Splunk training: 10 courses including Enterprise Security, SOAR Applications, and Defense Analyst
- TryHackMe: 13 certifications and Top 1% global ranking

## Projects

- **Kids Wonder Learn (KWL):** Built a browser-based educational platform with student, parent, teacher, and admin dashboards using HTML, CSS, JavaScript, and planned Supabase integration; implemented role-based access, login flows, progress tracking, activity logging, and a security-focused configuration design.
- **IBM Internship – Tejas Raksha:** Worked on a zero-day scanner project for agricultural portals, focusing on identifying web security weaknesses and improving secure application practices.
- **IBM Academic Internship / Industry Collaboration:** Completed cybersecurity-focused internship work under an IBM-linked academic collaboration involving ethical hacking, digital forensics, and hands-on security learning.
- **DefendX:** Developed a real-time threat detection and monitoring project for enterprise-style security operations and alert visibility.
- **AI-Powered Deepfake Detection System:** Built a deepfake detection solution using heatmap analysis and metadata extraction; achieved 99% accuracy in a hackathon project.
- **Password Strength Checker:** Developed a security tool to evaluate password quality and promote secure password practices.
- **Doctors Appointment Booking System:** Built an award-winning web project for appointment scheduling and healthcare workflow management.

## Experience and Training

### IBM Internship – Tejas Raksha

Worked on a zero-day scanner project for agricultural portals, focusing on identifying security weaknesses and strengthening secure web application practices.

### IBM Academic Internship / Industry Collaboration

Completed internship-oriented work under IBM-linked academic collaboration in cybersecurity, ethical hacking, and digital forensics through Yenepoya University.

### Deloitte Australia Cyber Job Simulation Internship (Forage)

Completed practical tasks related to enterprise cybersecurity operations and security analysis.

### AgileTEC In-Plant Training

Apr 2022

Completed a 3-week training program in Android application development and software workflow practices.

## Technical Skills

- **Languages:** Python, Java, C++, C, JavaScript
- **Security:** SIEM, threat hunting, IDS/IPS, risk management, ethical hacking, penetration testing
- **Cloud:** AWS Security, IAM, secure architecture, AWS Shield, Secrets Manager
- **Forensics:** Digital forensics, metadata extraction, heatmap analysis
- **Tools:** Splunk, Linux, SQL, HTML/CSS

## Achievements

---

- Top 1% globally on TryHackMe
- 2nd Place in IBM ICE DAY 2025 CTF Competition
- Finalist in CODE SPRINT Hackathon (Top 7 out of 65 teams)
- Consolation Prize Winner in CIDECODE Hackathon

- Best Project Award for Doctors Appointment Booking System

## Activities

---

- Member, OWASP Yenepoya
- Active participant in CTFs, hackathons, and cybersecurity learning platforms
