

Giridhar Pai

Cybersecurity Analyst | Information Security Analyst | Security Operations

Bantwal, Karnataka, India | +91 96201 36007 | www.giridharpai@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Highly detail-oriented cybersecurity student with hands-on experience in SOC-style monitoring, vulnerability assessment, documentation, and digital forensics. Demonstrates strong organizational, communication, and problem-solving skills, with the ability to manage multiple tasks, follow structured processes, and maintain accurate records consistently. Motivated to develop a career in security operations, vulnerability management, and cybersecurity compliance.

Core Competencies

- Attention to detail, accuracy, and accountability.
- Written and verbal communication.
- Professional communication and client coordination.
- Collaboration and teamwork.
- Organizational skills and time management.
- Ability to manage multiple tasks and deadlines.
- Willingness to learn and adapt quickly.
- Confidentiality, documentation, and process adherence.
- Scheduling, follow-ups, and tracker management.

Education

Yenepoya University (Mangalore)

Jul 2023 – Jul 2026

BCA in Cyber Security, Ethical Hacking, and Digital Forensics (IBM Industry Collaboration)

S N Moodbidri Polytechnic

Aug 2019 – May 2022

Diploma in Computer Science and Engineering

Certifications

- **Security Operations & SIEM:**
 - Splunk Training: 10 courses including Enterprise Security, SOAR, and Defense Analyst
 - Splunk: The Complete Course from Zero to Hero
- **Cloud & Network Security:**
 - AWS Certified Security – Specialty
 - CompTIA Network+
- **Cybersecurity Foundations & Forensics:**
 - Google Cybersecurity Specialization
 - Digital Forensics Essentials (EC-Council)
- **Internships & Simulations:**
 - Deloitte Australia – Cyber Job Simulation (Forage)
 - SAP Analytics Cloud: Managing Security and Administration
- **Platforms:**
 - TryHackMe: 13 certifications, Top 1% globally

Technical Skills

- **Security Operations:** SIEM (Splunk), alert review, threat hunting, incident response basics, vulnerability assessment, DDoS mitigation, IDS/IPS concepts.
- **Compliance & Governance:** Documentation support, evidence tracking, process adherence, confidentiality, attention to detail.
- **Cloud Security:** AWS Security, IAM, Secrets Manager, secure architecture.
- **Forensics:** Digital forensics, metadata extraction, heatmap analysis.
- **Productivity:** Microsoft Excel, Google Sheets, spreadsheets, trackers, and documentation workflows.

Tools & Technologies

Splunk (Enterprise Security, SOAR), Linux, Docker, Python, Java, C, JavaScript, SQL, HTML/CSS, Git, Excel, Google Sheets, Wireshark, Nmap, Burp Suite, Metasploit, Kali Linux, TryHackMe, Security Onion, ELK Stack, Jira

Experience

IBM Internship – Tejas Raksha (Yenepoya University)

Cybersecurity Intern – Zero Day Scanner For Agricultural Portal(Tejas Raksha)

- Developed an automated web vulnerability scanner for agriculture portals to identify OWASP Top 10 issues and support secure application review.
- Documented findings clearly and accurately with remediation guidance and secure coding recommendations.
- Maintained structured notes and organized technical outputs to support review and follow-up.

IBM Academic Internship / Industry Collaboration (Yenepoya University)

Cybersecurity Intern – DDoS Mitigation System Project

- Worked on an IBM-linked academic cybersecurity project focused on defensive security, monitoring, and digital forensics.
- Built a DDoS mitigation system to detect suspicious traffic patterns and reduce distributed denial-of-service attacks.
- Supported documentation and project coordination while following defined workflows and deadlines.

Deloitte Australia Cyber Job Simulation (Forge)

Cyber Security Simulation

- Completed enterprise cybersecurity tasks involving security monitoring, incident analysis, and risk assessment.
- Practiced SOC-style workflows including alert review, documentation, and response reporting.
- Strengthened communication, accuracy, and structured problem-solving through simulated client-facing work.

AgileTEC In-Plant Training

Apr 2022

3-week training in Android app development and software engineering workflows.

Projects

- **Tejas Raksha:** Automated web vulnerability scanner for agriculture portals that detects OWASP Top 10 issues and supports secure testing.
- **DefendX:** Real-time threat detection and monitoring system designed to simulate SOC operations and support incident response.
- **AI-Powered Deepfake Detection System:** Deepfake detection tool using metadata extraction and heatmap analysis for identifying manipulated media.
- **Password Strength Checker:** Client-side tool that evaluates password entropy and weak patterns to encourage stronger passwords.
- **Kids Wonder Learn (KWL):** Educational platform with role-based access, activity logging, and security-focused configuration.
- **Doctors Appointment Booking System:** Workflow system with authentication, access control, and offline deployment.

Achievements

- Top 1% globally on TryHackMe (13 certifications).
- 2nd Place, IBM ICE DAY 2025 CTF Competition.
- Finalist, CODE SPRINT Hackathon (Top 7 of 65 teams).
- Consolation Prize, CIDECODE Hackathon.
- Best Project Award, Doctors Appointment Booking System.

Activities

- Member, OWASP Yenepoya.
- Active participant in CTFs, hackathons, and cybersecurity learning platforms.
